WELCOME FROM THE PRESIDENT

Welcome to the Cairns Show – Australia's Largest Regional Agricultural Show!

Firstly, we would like to acknowledge the Traditional Owners of the Land, and give thanks to the Federal Government, State Government, and the Cairns Regional Council for their support. Thank you to the Members, Volunteers, Committee, and Staff for their invaluable contributions.

Thanks to our vibrant community, we have the privilege of hosting an amazing Show for Cairns and the surrounding Regions. It's a true reflection of our cultural spirit, bridging the gap between urban and rural life. You'll find a diverse range of attractions, including intriguing competitions where participants can win prize money, showcases of local talent, educational demonstrations, regional information, and a multitude of exciting stalls and entertainment throughout the grounds.

I recommend exploring Across the Bridge, where you can visit our AG-Venture Agricultural display to learn more about our region's abundant agricultural industries. Here, you'll also find activities such as the sunflower field in Dunny Avenue, as well as encounter animals like miniature goats and beautiful birds.

Enjoy a variety of competitions and entertainment in the Clive Gordon Main Arena, or step back in time at our Seven NEWS Heritage Park. Explore the offerings of our exhibitors in the Fred Moule Exhibition Centre or reconnect with nature at the Honey Providore Horticultural Pavilion. With so much to do, one day may not be enough to experience it all!

The Cairns Show is perfect for families on a budget, offering a plethora of free activities. You can find a comprehensive list of these in our Cairns Show Guide.

On behalf of the Cairns Show Association, we wish you a fantastic time at the Cairns Show 2024.

Mr. Ian Allen

President, Cairns Show Association

CLASS DEFINITIONS

PEOPLE/PORTRAITURE:

- A Photograph of a person or persons that may range from a head study to full body length. This section includes candid photographs and formal portraits. This category is for photographs where people are the focus whether a single person or a group, showing the human aspect of life in all its wonderful variety. From self-portraits as an expression of the photographer, or portrait images capturing the personality of a person or group of people interacting. Images from events where the interaction of the people is central, or street and ad-hoc portraiture which capture the essence of lifestyle, random moments, real life, chance encounters.
- The person/people/interaction is central to the subject, not the activity or surroundings.

SCAPES:

- In the monochrome section there is a single class combining both styles of images described below.
- **Landscape and seascape photography** is capturing an image that embodies the spirit of the outdoors. It carries a sense of being there to see something incredible. The image may contain people or man-made objects that provide perspective or highlight the grandeur of the landscape. These man-made elements may also balance the image or enhance the sense of calm, danger, action, isolation etc. of the landscape while remaining incidental to the core story.
- **Urban and streetscape photography** records the true state of the human condition by showing how society acts when it thinks that nobody is watching. Streetscapes can show the harsh geometry of man-made structures AND/OR contrast them around contradictory natural objects. They will often show the intense crowding of high-density living or the desolation of abandoned or empty streets. They include shapes, patterns, reflections found commonly in the man made world and the actions and interactions of life and living in an environment that is distinctly human made and both positive and negative sides of the human-urban condition. Streetscapes may often include people and man-made objects where the focus is the scape and the urban environment over the individuals or the activity inside the scape.
- Close-up features are NOT regarded as landscapes.

ACTION / SPORTS:

- Images that emphasise sports or personal pursuits that involve and portray a high energy environment. They can show a moment in time, a particular active event or portray the artistry / symmetry of moment in time of participation. These shots either catch a clear frozen moment, or rather imply the blur of rapid movement. The viewer is clearly in awe of activity and the participant.

THE NATURAL KINGDOM:

- Includes birds, insects, animals, reptiles and fishes and including animals of a domestic nature provided no evidence of restrictions or caging or fencing is evident.
- This includes plants and/or flowers through any stage of the life cycle, from seed to decay. This includes bark, leaves, fungi, as well as flowers, seeds and grasses. Subjects may be cultivated or uncultivated.

SPECIAL TECHNIQUE – AERIAL PHOTOGRAPHY:

- This class will change from year to year. For 2024 this is an opportunity to showcase images taken from the air.
- Aerial images provide a unique perspective – usually of the natural world highlighting patterns not visible when standing on the land. Images can be a simple shot out an airplane window, or a helicopter shot, or taken from a drone (including “stitched” aerial panoramas)

CLASS DEFINITIONS - CONTINUED

SPECIAL SUBJECT THEME – DOORS AND WINDOWS:

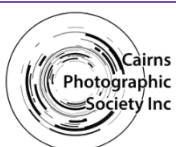

- This class is a subjective theme that will change from year to year.
- The theme may be taken literally OR may also be taken figuratively.
- For 2024 the theme of Doors and Windows can be explored showing simple doors and windows or an artistic subjective view of what doors or windows represent to society.
- It may also be a simple image comparing multiple doors and images across cultures, times, architectures etc.
- This class can include creative editing techniques and such as composite editing similar to that allowed in Creative / Experimental where the outcome represents the subject in the eyes of the judges. Following all the requirements of a creative section – all components must be the work of the entrant.

OPEN:

- Any subject created pictorially where the image has the key elements of design, arrangement, composition and wow.
- A reflection of the photographer's interpretation and can include direct or abstract concepts, minimalism, shape studies etc.

CREATIVE / EXPERIMENTAL:

- Creative or experimental photographs display a novel effect because of an unusual combination of objects and/or unusual viewpoint. Images may consist of composite of multiple photographs and that have been modified during or after exposure.
- Images may also include the use of an elaborate set or make-up to portray a surreal or unreal situation. Resulting images may be the result of combining multiple images taken by the photographer. Creativity and innovation in the construction of the image and its elements may include editing through the use of software or the mere application of creative studio lighting or in camera techniques. All components of the image must be the property of the photographer.
- Creative or experimental photographs may be Colour or Monochrome.
